Affordable Today.  
Reliable Tomorrow.

- ✓ Output conveyor with adjustable stacker wheels for neat, sequential stacking

- ✓ Clearly marked folds plates make setup a breeze

## F100

### Tabletop Document Folder

The United F100 Document Folder is an ideal solution for low-volume folding projects. This compact unit processes up to 156 sheets per minute in 11" and 14" paper sizes. It's clearly marked for 4 common fold settings.

The LCD control panel features a resettable 3-digit counter with a batch setting to process a specific number of sheets, for easy unloading.

The output conveyor includes easily adjustable stacker wheels for neat, sequential stacking of folded pieces.

The clearly-marked fold settings and simple out-of-the-box operation make it the perfect addition to schools, churches, and offices looking for easy setup and minimal adjustments.
